

PERCUSSION TECHNOLOGY

Percussion therapy provides targeted pulses of pressure into the muscle/ tissue of the body, helping to relieve muscle pain, stiffness and soreness, and increase range of motion. Percussive stimulation provides comprehensive relief by reaching both the superficial and deep muscle fibers. The Hypervolt line delivers three speeds of rapid percussion almost silently – ideal to relieve tension and accelerate warmup and recovery after physical activity.

HYPERVOLT PLUS

Handheld Percussion Massage Device
Featuring QuietGlide™ Technology

MORE POWER. STILL QUIET. FULLY CONNECTED.

30% more powerful than the Hypervolt, the Hypervolt Plus is the strongest and most advanced percussion massage device in the world. Seriously strong, aesthetically sleek, and now fully connected for automated use with the Hyperice App. The best of the best.

MSRP \$399

54020 001-00
