CryoPen[®] XP

Leading-edge cryosurgery

EXTREME PRECISION

Microfine jet for precise control.
Safe for use on delicate skin or near the eyes.

EXTREME POWER

N₂O at high pressure (55 bars) and ultralow temperature (-89°C) for effective cell destruction.

BETTER TREATMENTS

No pain, no stress, no damage to healthy tissue.

BETTER RESULTS

Perfect results for complete removal
of all benign skin lesions.

BETTER BUSINESS

Efficient, practical and extremely cost effective.
For a quick return on investment.
