

koi 
Designing happiness™

If you're already familiar with koi, you know we're not your typical uniform company. We do things a little differently.

It's what makes us passionate about the styling, fabric and fit of every garment we make. Our commitment is the same when it comes to group styles. That's why we design our group collections to be inclusive and flattering for all shapes and sizes. We offer more options than most when it comes to petite, tall and plus sizes. It's all about group happiness.

After all, if your team has to wear scrubs to work every day, shouldn't they love them?

**We are all about designing happiness.
One stitch at a time.**

koi lite™

ADVANCED PERFORMANCE SCRUBS

Inspired by contemporary athletic wear, koi Lite is ideal for active groups seeking high-performance scrubs that can stand up to whatever the world throws at you.

Lightweight performance stretch and moisture-wicking allow your team to take on the day's challenges without breaking a sweat. Rib knit trim provides extra flexibility when work requires it. And easy care means your team can look poised and professional at all times, no ironing required.

French Bull by koi **KEY FEATURES**

koi is proud to introduce its newest collaboration, the French Bull by koi collection.

Boasting the signature designs of French Bull's founder and designer Jackie Shapiro, this new koi collaboration brings French Bull's mastery of pattern and color to scrubs for the very first time.

French Bull lets people show their true colors. It's fierce, fashionable and fun. Just what you'd expect from a koi collaboration.

The new French Bull by koi collection reimagines the ordinary with a vibrant twist.

- Vibrant patterns and prints that express the motto **LIVEVIVID.**
- Soft and silky brushed finish
- Breathable and ultra comfortable
- Moisture-wicking keeps you cool and dry
- 4-way stretch for easy movement
- Repels lint for a cleaner look
- Fade, shrink and wrinkle resistant
- No ironing required

LIVEVIVID.™

TAILORED TO PERFECTION

When it comes to lab coats, we don't do generic. Instead, we combine modern styling and high-performance fabrics with old school attention to detail to create tailored garments that meet your professional needs and reflect your group's personality.

To most people, a lab coat isn't an everyday purchase. We think if you're going to own a lab coat for a long time, you should love it.

WHY *koi* GARMENTS ARE SECOND *to* NONE

WE DON'T JUST MEET INDUSTRY STANDARDS. WE EXCEED THEM.

All koi fabric is subject to **21 separate tests** before we offer our seal of approval. Testing is conducted via third-party testing agencies and institutes as well as at our factories and again when the garments arrive at koi in the US.

HERE ARE JUST A FEW OF THE TESTS WE REQUIRE OUR FABRIC TO PASS:

FABRIC CONSTRUCTION

All fabric is tested for quality, consistency and weight. If the fabric is not up to our standards, it is rejected.

pH LEVEL

We test our fabric for acid/alkali content because pH levels too high or low can cause skin irritation or unexpected color changes in the fabric.

COLORFASTNESS IN ACTUAL HOME CONDITIONS

To evaluate color staining, fading and durability, we test wash our garments 25 times in real world conditions.

COLORFASTNESS TO LIGHT AND PERSPIRATION

We conduct a variety of colorfast tests to study our fabric's response to sunlight, perspiration and other common everyday conditions.

STRENGTH AND DURABILITY

We conduct a number of strength tests, including tensile, tearing and seam strength.

WRINKLE RECOVERY

We study the effects of wrinkling on our fabric and the ability to recover.

SNAG, PILLING AND ABRASION RESISTANCE

We evaluate the effects of these common everyday occurrences and how to combat them.

SHRINKAGE

We test our fabric for the level of shrinkage both as the result of home washing and steaming and ironing.

WICKING

We evaluate the ability of our poly and poly/Spandex fabric to trap moisture rapidly and carry it away from the body.

STRETCH AND RECOVERY

For stretch fabric, we evaluate the degree of stretch as well as how the fabric recovers after tension and extension.

TESTING IS JUST PART OF THE STORY.

Testing and quality control aren't the only reasons to choose koi. We give special attention to styling, fit, comfort and design details. We're known for our attention to detail and the functionality of our garments.

In addition, we partner only with the best, ethical factories throughout the world, where workers are treated fairly and humanely.

At koi, we take great pride in each and every garment that carries our name. Our mission is to create scrubs that our customers love. And that starts with making the best fabric we know how.

Mediocre Is Not In Our DNA

At koi, we make our fabric pass 21 separate tests before putting our name on it. Our team is fastidious about getting the fit right. We add little design details that other scrub companies can't be bothered with. Tweaking, testing and re-engineering is in our DNA. Some might call it obsessive.

It's all part of our mission to make the best scrubs you will ever love.

We are all about designing happiness. One stitch at a time.
