# DERMA 2.0®

## About us

**Production and distribution of Cosmetics and Medical Devices Class III – Class II and devices for aesthetics and aesthetic medicine.**

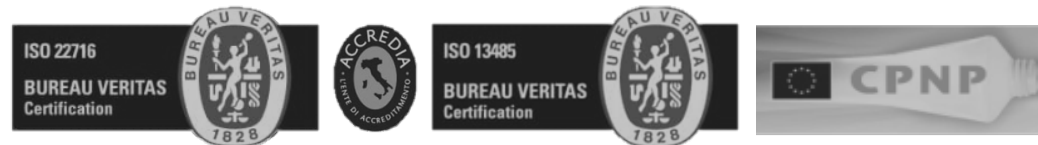

Since 2015, Derma 2.0® has been dedicated to all professionals in the aesthetic and medical aesthetic sector in Italy and around the world.

The commitment to the constant research of new cutting-edge active substances, meticulousness in the production and post-production phases and the rapid and efficient customer service, make the products and services signed Derma 2.0® perfect for all professionals in the sector looking for rapid, efficient and above all safe solutions.

*“Effectiveness in simplicity!”*

*“Returning to the essentials to rediscover the effectiveness of active substances!”*

*Derma 2.0® Products are formulated and produced according to the Iso 22716:2007 and Iso 13485:2016 standards  
100% Made in Italy*

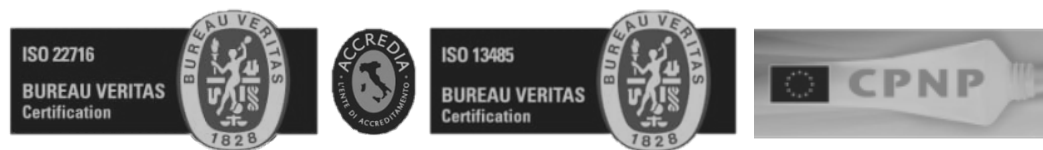

DERMA<sup>®</sup>2.0 <sup>med</sup> DERMA<sup>®</sup>2.0

## *Our strengths*

### Customer care

Customer service composed of young, dynamic and technically trained staff, active 6 days a week who take orders, assist and advise the customer at 360°. Free technical/scientific assistance after purchase with qualified professionals to support the customer.

### Certifications

Certifications and technical sheets of products and devices available immediately upon customer request for absolute transparency.

### Accredited Suppliers

Suppliers and partners accredited by «Bureau Veritas» and in possession of the ISO and GMP certifications required by law.

### Safe payments

Digital and encrypted payment platforms (STRIPE, PAYPAL, KLARNA, BANK TRANSFER) in order to guarantee a safe and efficient service.

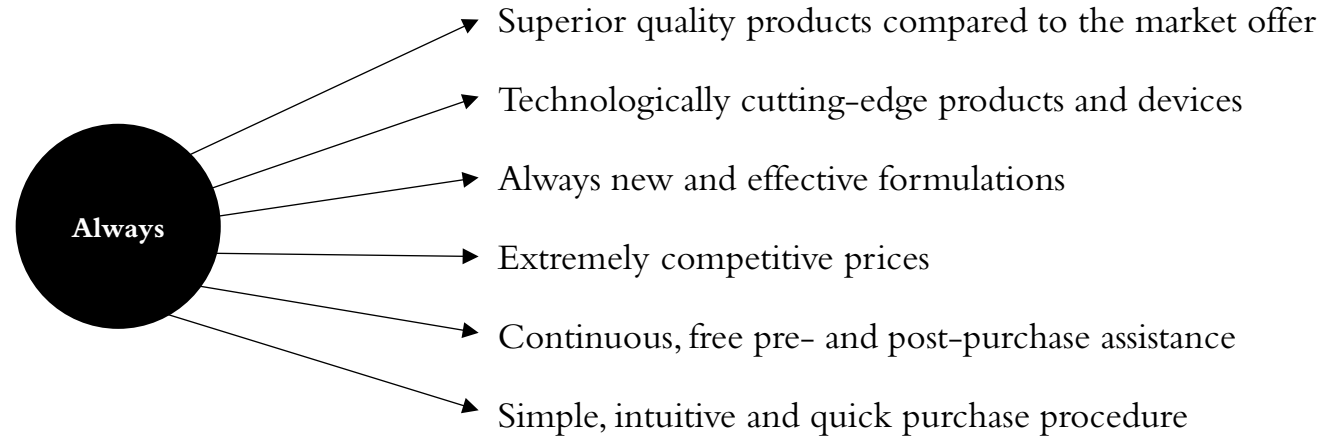

### Fast Shipping

Guarantee of order fulfillment (after receiving payment) in 24/48 working hours via DHL, FEDEX, UPS carriers.

## DERMA 2.0® & DERMA 2.0 med Our products

All products in the Derma 2.0® and Derma 2.0 med in vials lines are rigorously formulated and produced with complete respect for the environment, STERILE, Supported by Patch Tests and efficacy tests, without carrying out any tests on animals, free from synthetic antioxidants such as BHT and BHA, aluminum salts, SLS and SLES surfactants, nanomaterials and carcinogenic compounds, fragrances and various additives.

Multifunction products for aesthetics and aesthetic medicine

With high tolerability

Pure and highly selected raw materials

Pharmaceutical grade

Safe and clinically tested by accredited laboratories

Possibility of combination for 100% customizable treatments

Original and cutting-edge formulations

Effectiveness proven by clinical tests

High concentration of active substances

Proudly 100% Made in Italy

# DERMA 2.0® PROFESSIONAL MESO COCKTAILS

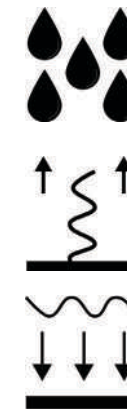

*Derma 2.0® cocktails have been developed for all professionals in the aesthetic and medical aesthetic sector who wish to obtain tangible and concrete results in the treatment of all facial and body blemishes.*

*Formulated respecting the most rigorous health controls, highly concentrated pure active ingredients, of pharmaceutical quality, sterile, with very high tolerance, safe, microbiologically and dermatologically tested.*

*With Derma 2.0® cocktails it is possible to effectively treat: cellulite, adiposity, stretch marks, scars, blemishes, acne, loss of tone, hyperpigmentation, alopecia and any blemish related to aging.*

## DERMA-BIO COCKTAIL - Biorevitalizing action

*Biorevitalizing*

### ***Presentations:***

*Box of 5 sterile vials x 5 ml*

### ***Indications:***

*Complete, non-photosensitizing solution that acts at 360 ° on all signs of aging: reduces wrinkles, firms, hydrates and tones.*

### ***Ingredients:***

*Next slide*

## ***DERMA-BIO COCKTAIL - Ingredients***

### **3 MOLECULAR WEIGHTS HYALURONIC ACID COMPLEX**

#### **LOW + MEDIUM + HIGH**

*Sodium Hyaluronate 16 mDA, Sodium Hyaluronate 15 Kda, Hydrolyzed Hyaluronic Acid 5KDa*

### **AMINOACIDIC COMPLEX**

*Arginine, Proline, Glycine, Hydroxyproline, Leucine, Isoleucine, Alanine, Methionine*

### **REVITALIZING & MULTIVITAMINIC COMPLEX**

*Biotin – Vitamin B8, Ascorbic Acid – Vitamin C, Retinyl Palmitate – Vitamin A, Niacinamide – Vitamin B3, Pyridoxine – Vitamin B6, Thiamine – Vitamin B1, Riboflavin – Vitamin B2, Cyanocobalamin – Vitamin B12, Tocopheryl Acetate – Vitamin E*

### **REVITALIZING MINERAL SALT COMPLEX**

*Magnesium, Potassium*

### **PEPTIDIC COMPLEX**

*Acetyl Hexapeptide-8 – Argireline, Pentapeptide-18 - Leuphasyl*

### **ANTIOXIDANT COMPLEX**

*Sodium DNA, Glutathione, Resveratrol, Acetylcysteine, Ubiquinone (Coenzyme Q10)*

## *DERMA-BIO COCKTAIL – Before and after*

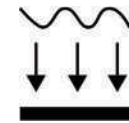

**5 Sessions, one each 7 days.  
At home Treatment: Derma-Bio  
Cream Twice a day.**

## *DERMA-BIO COCKTAIL – Before and after*

**6 Sessions, one each 7 days.  
At home Treatment: Derma-Bio Cream  
Twice a day.**

## DERMA-LIFTING COCKTAIL – "Botox like" action

*Lifting*

**Presentation:**

*Box of 5 sterile vials x 5 ml*

**Indications:**

*Dinamic wrinkles*

**Ingredients:**

*Argireline (esapeptide 8) + Leuphasyl (pentapeptide 18)*

 **DERMA<sup>®</sup> 2.0**

## *DERMA-EYE COCKTAIL - Anti-bags and dark circles action*

*Dark Circle*

*Bags*

### ***Presentation:***

*Box of 5 sterile vials x 3 ml*

### ***Indications:***

*Dark Eye and Eye Bags*

### ***Ingredients:***

*Acetyl hexapeptide-30, Arginine, Artichoke Extract, Caffeine, 3-o-ethyl Ascorbic Acid, Aescin, Tocopherol Acetate.*

**DERMA<sup>®</sup>2.0**

## *DERMA-EYE COCKTAIL - Anti-bags and dark circles action – Before and After*

**5 Sessions, one each 7 days.  
At home Treatment: Derma-Eye Serum & Cream  
Twice a day.**

## *DERMA-WHITENING COCKTAIL – Depigmentig and whitening action*

*Hyperpigmentations*

*Photo-aging*

**Presentation:**

*Box of 5 sterile vials x 5 ml*

**Indications:**

*Hyperpigmentation: spots, melasma, chloasma*

**Ingredients:**

*Next slide*

 **DERMA<sup>®</sup>2.0**

## ***DERMA-WHITENING COCKTAIL – Ingredients***

### ***DEPIGMENTING COMPLEX AND INHIBITOR OF MELANOGENESIS***

*Succinic Acid, Resorcinol, Arbutin, Azelaic Acid, Water-soluble Vitamin C, Glutathione*

### ***ANTI-AGE METABOLIC REACTIVATOR COMPLEX***

*ACETYL GLUTAMINE, Sh-Oligopeptide-1, Sh-Oligopeptide-2, Sh-Polypeptide-1, Sh-Polypeptide-9, Sh-Polypeptide-1, Bacillus/folic acid ferment filtrate extract (VITAMIN B9), Sodium hyaluronate*

***N.B.: Considering the composition of the DERMA-WHITENING COCKTAIL product, it is not possible to inject the product. Vehiculate exclusively with techniques such as: electroporation etc.***

## *DERMA-WHITENING COCKTAIL – Before and after*

**5 Sessions, one each 7 days.  
At home Treatment: Derma-Whitening Cream  
Twice a day.**

## *DERMA-WHITENING COCKTAIL – Before and after*

**5 Sessions, one each 7 days.  
At home Treatment: Derma-Whitening Cream  
Twice a day.**

## *DERMA-PURIFYING COCKTAIL – Purifying action cocktail for acne prone skin*

*Acne, blemished skin*

### ***Presentations:***

*Box of 5 vials x 5 ml*

### ***Indications:***

*Dermopurifying treatment specific for impure skin*

### ***Ingredients:***

*Next slide*

## ***DERMA-PURIFYING COCKTAIL – Ingredients***

***DERMOPURIFYING COMPLEX:*** Burdock Extract, Vitamin A, Azeloglicine, Azelamidopropyl dimethyl amine, Cordyceps sinensis Extract, Trametes Versicolor Extract

***MELANOGENESIS INHIBITOR COMPLEX:*** Niacinamide, Oligopeptide-34

***N.B.:*** Considering the blemish to be treated, the blemish to be treated, the sensitivity of the skin and various clinical conditions of the patient, We recommend not injecting the Product. Vehiculate exclusively with techniques such as: electroporation etc.

## *DERMA-PURIFYING COCKTAIL – Before and After*

**6 Sessions, one each 7 days.  
At home Treatment: Derma-Purifying mousse  
and Cream Twice a day.**

## ***DERMA-SENSITIVE COCKTAIL – Shooting action treatment***

***Sensitive & Rosacea  
Prone skin***

***Presentations:***

*Box of 5 vials x 5 ml*

***Indications:***

*Soothing treatment for sensitive and reactive skin*

***Ingredients:***

*Next slide*

## ***DERMA-SENSITIVE COCKTAIL – Ingredients***

***ANTI-REDNESS AND SOOTHING COMPLEX:*** Lavender extract, Mallow extract, Aloe vera, Bisabolol, Cordyceps sinensis extract, Trametes Versicolor extract

***HYDRATING AND REPAIRING COMPLEX:*** Allantoin, Acetyl decapeptide-3, Hyaluronic acid

***N.B.:*** Considering the blemish to be treated, the blemish to be treated, the sensitivity of the skin and various clinical conditions of the patient, We recommend not injecting the Product. Vehiculate exclusively with techniques such as: electroporation etc.

## *DERMA-SENSITIVE COCKTAIL – Before and After*

**6 Sessions, one each 7 days. At home Treatment:  
Derma-Regen Mask (and Derma-Hydrating cream)  
Twice a day.**

## *DERMA-HAIR COCKTAIL - Hair strengthening and anti-hair loss action*

- *Androgenetic alopecia*
- *Telogen effluvium*
- *Traction alopecia*

### ***Presentations:***

*Box of 5 sterile vials x 5 ml*

### ***Indications:***

*Complete treatment with strengthening action against hair loss*

### ***Ingredients:***

*Next slide*

## ***DERMA-HAIR COCKTAIL - Ingredients***

***STRENGTHENING COMPLEX:*** *Panthenol – Vitamin B5, Biotin*

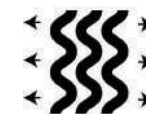

***MICROCIRCULATION STIMULATING AND ANTIOXIDANT COMPLEX:*** *Carnitine, Arginine, Eucalyptus Extract, Vitamin E, Sh-Polypeptide-1, Sh-Polypeptide-1, Sh-Oligopeptide-2, Sh-Oligopeptide-10, Sh-Polypeptide-9*

## *DERMA-HAIR COCKTAIL – Before and After*

10 Sessions, one each 7 days

## *DERMA-REPAIR COCKTAIL - Regenerating and restructuring action for scars and stretch marks*

*Stretch Marks (Body)*

*Scars (Face and Body)*

***Presentation:***

*Box of sterile 5 vials x 5 ml*

***Indications:***

*Scars and Stretch Marks*

***Ingredients:***

*Next slide*

## ***DERMA-REPAIR COCKTAIL - Ingredients***

### **SOOTHING AND REGENERATING COMPLEX**

*D-Panthenol, Centella Asiatica Extract, Pseudoalteromonas Extract*

### **AMMINOACIDIC COMPLEX**

*L-Arginine, L-Proline, Glycine, Citrulline*

### **PEPTIDIC COMPLEX**

*Acetyl Tripeptide-30, Pentapeptide-18*

## *DERMA-REPAIR COCKTAIL – Before and After*

**10 Sessions, one each 7 days: At home  
Treatment: Derma-Bio Cream Twice a day.**

## *DERMA-REPAIR COCKTAIL – Before and After*

**5 Sessions, one each 7 days**

## *DERMA-REPAIR COCKTAIL – Before and After*

5 Sessions, one each 7 days

## *DERMA-FIRMING COCKTAIL – Toning action for face and body*

↑ ↑  
Loss of tone  
(Face and body)

***Presentation:***

*Box of 5 sterile vials x 10 ml*

***Indications:***

*Lack of tonicity face and body*

***Ingredients:***

*Next slide*

## ***DERMA-FIRMING COCKTAIL – Ingredients***

### ***FIRMING COMPLEX***

*DMAE (dimetilaminoetanol), Organic Silicium*

***ELASTICIZING PEPTIDE COMPLEX:*** Oligopeptide-1, Oligopeptide-2, Polypeptide-1, Polypeptide-9, Polypeptide-11, Tetrapeptide-2, Decapeptide-3

### ***NOURISHING COMPLEX WITH ESSENTIAL AMINO ACIDS***

*Lecithin, Glutamine, Niacinamide, Serine, Glutamic Acid, Proline, Glycine, Alanine, Valine, Isoleucine, Leucine, Tyrosine, Phenylalanine, Lysine, Histidine, Arginine, Aspartic Acid, Threonine.*

### ***HYDRATING AGENT***

*High molecular weight sodium hyaluronate*

### ***RESTRUCTURING AND ANTIOXIDANT COMPLEX***

*Hydrolized collagen, Panthenol, Folic acid, Glutathione*

## *DERMA-LIPO COCKTAIL - Lipolytic action treatment*

## ***DERMA-ESOSOME AGE - Ingredients***

**EXOSOMICAL COMPLEX:** *Citrus Reticulata (Tangerine) Fruit Extract, Citrus Reticulata (Tangerine) Fruit Juice Vesicles*

**LIFTING COMPLEX:** *Argireline (Acetyl Hexapeptide-30 - Acetyl Octapeptide-3)*

**MOISTURIZING AGENT:** *Sodium hyaluronate*

**ANTIOXIDANT AGENT:** *Glutathione*

**REGENERATING COMPLEX:** *Palmitoyl Tripeptide-1, Palmitoyl Tetrapeptide-7*

**MICROCIRCULATION STIMULATING AGENT:** *Arginine*

# DERMA-ESOSOME AGE - Detailed explanation

After more than 12 months of laboratory work and testing, Derma 2.0 is pleased to present Derma- Esosome Age, a sterile cocktail based on a specific exosome of vegetal origin, combined with other active substances in order to represent a real shock ally in anti-aging treatments, problems related to dehydration and active inflammatory states such as dermatitis, psoriasis, etc.

*It is its composition that justifies its use in these problems:*

- **Exosome of Citrus Nippokoreana (Citrus Reticulata (Tangerine) Fruit Extract & Citrus Reticulata (Tangerine) Fruit Juice Vesicles ):** Precious and rare mandarin harvested from Jeju Island Citrus Nippokoreana is also called "green mandarin" in Korea. Green mandarin is a Jeju fruit with a long history. It was used as refreshment when serving guests. In addition, its peels were valuable ingredients for herbalists. The green mandarin is resistant to cold and disease. The fruit is green until February, and turns yellow after March. Green mandarin has a very strong sour taste and can therefore replace lemon or lime. It has a higher vitamin C content, compared to lemon, and is known to strengthen immunity against colds prevention and skin care. It also contains nobilitin which has anti-inflammatory and anti-obesity effects. Grown in the fresh air and water of volcanic rock substrate, mandarin is the main specialty of Jeju Island. Jeju Island , located at the southern tip of Korea, maintains a warm temperature even in the middle of winter, making it a highly suitable place for growing mandarins.
- In vivo and in vitro efficacy studies on exosomes derived from this fruit have demonstrated the following effects:

**1) Anti-wrinkle action:** through the inhibition of specific proteases which leads to an increase in collagen and elastin levels. Metalloproteinases (also called matrixins , metalloproteases or MMPs ) are a family of proteolytic enzymes, that is, substances capable of catalyzing (= making faster) the breaking of the peptide bond between the amino group and the carboxylic group of proteins, degrading them into their individual components.

These enzymes are normally present in healthy individuals and participate in the processes of tissue repair and renewal.

The classical physiological function of MMPs is the modulation and regulation of the turnover of the extracellular matrix (ECM), through the degradation of its component proteins (such as collagen, proteoglycans and fibronectin). The extracellular matrix is a network of macromolecules, composed of collagen, enzymes and proteins, which promote structural and biochemical support to tissue cells. Furthermore, it regulates many cell behaviors, such as growth and survival.

During this disruption action, MMPs also release biologically active proteins (such as cytokines, growth factors, and chemokines) from their membrane-anchored proforms.

MMPs activity is higher than normal, they contribute to undermining the skin microarchitecture, promoting premature skin aging. The increase in MMPs essentially depends on a local increase in free radicals (oxidative stress).

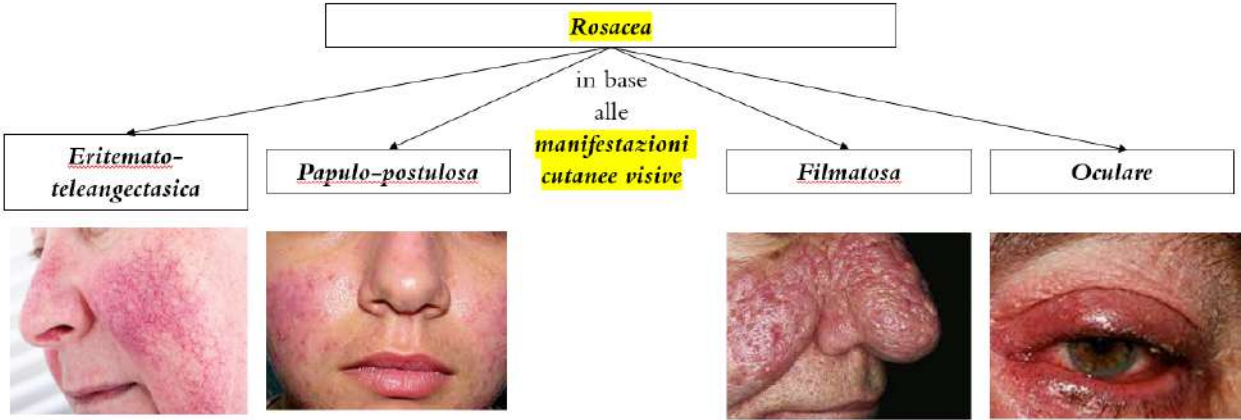

In turn, oxidative stress is typically associated with the natural aging process, but is also favored by inflammation and increased exposure to some environmental factors (smoking, UV rays, poor diet).

# DERMA-ESOSOME AGE - Detailed explanation

MMPs are secreted by keratinocytes and dermal fibroblasts in response to multiple stimuli, such as oxidative stress, UV radiation, and inflammatory cytokines. Alterations to the extracellular matrix by metalloproteinases could therefore contribute to the formation of skin wrinkles, a characteristic of premature skin aging. Histologically, skin aging is in fact characterized by an imbalance between the synthesis (which decreases) and the degradation (which increases) of the ECM components .

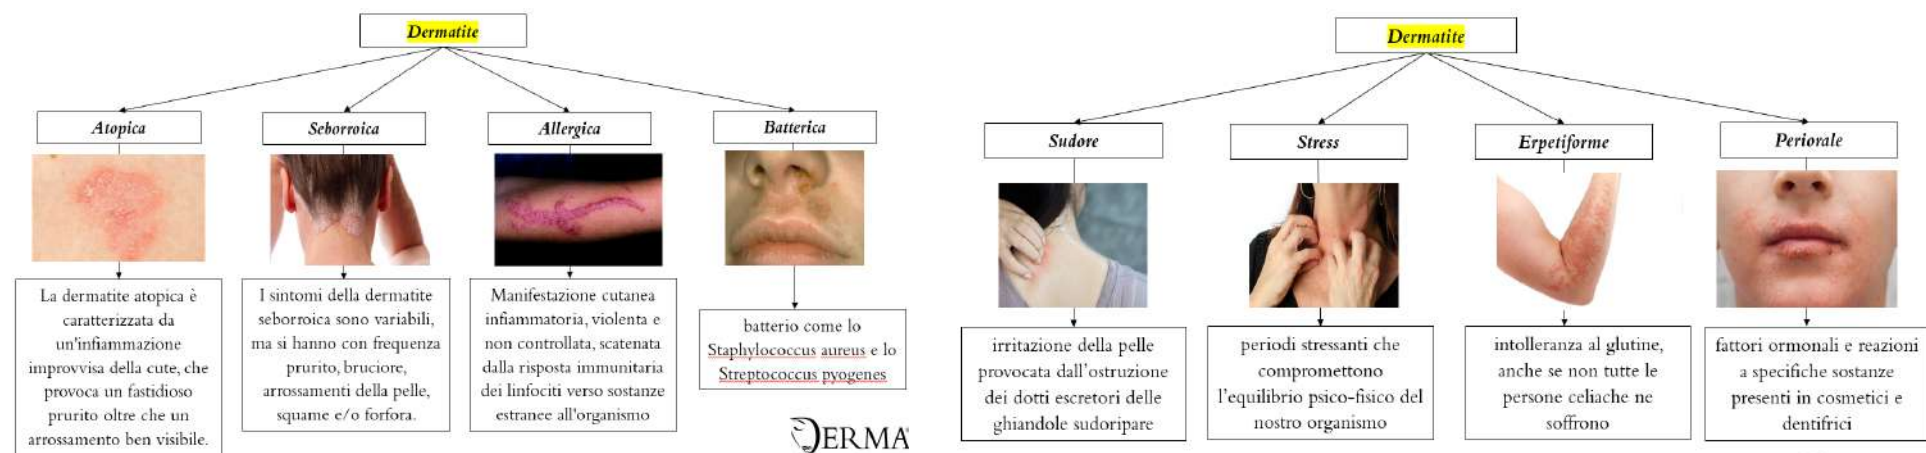

**2) Soothing action:** through the inhibition of the synthesis of inflammatory substances such as specifically: TNF- $\alpha$  or tumor necrosis factor, IL-6 or interleukin 6 and NO or nitric oxide). These three substances physiologically present in the body, in healthy conditions, are anti-inflammatory agents, but following an increase in physical-chemical insults, leads to acute inflammation, becoming from anti-inflammatory agents to pro-inflammatory agents. This specific aspect of the Citrus Nippokoreana exosome therefore contributes to reducing the inflammatory state of the most common primary skin diseases, such as:

- Rosacea: is a chronic inflammatory skin disease, which mainly affects adults, with light skin and hair. The onset of the dermatological pathology is accompanied by localized redness mainly on the cheeks, nose, chin and forehead (symptoms: redness and irritation, lesions and papules, telangiectasias, thickening of the skin);

# DERMA-ESOSOME AGE - Detailed explanation

- *Dermatitis: is defined as an inflammation of the skin that can have various causes and take different forms. The most common have an irritant or allergic origin and correspond to a reaction to external or internal factors that manifests itself with widespread skin rashes. Dermatitis is differentiated into irritant, allergic, eczematous, inflammatory, reactive dermatitis. It consists of a reaction of the skin to external factors (allergens, chemical, physical) or internal factors (release of inflammatory factors). It is characterized by a sudden inflammation of the skin that becomes red and itchy. It can be temporary or persistent, depending on the causes, and can be complicated by swelling, flaking, vesicles, blisters, erosions and scabs.*

**3) Moisturizers:** to increase the production of hyaluronic acid at the skin level. Hyaluronic acid is one of the fundamental components of the connective tissues of humans and other mammals. Its main function is to prevent the evaporation of hyaluronic acid present within the tissues, reinforcing the hydrolipidic film. It also stimulates fibroblasts to synthesize collagen. As we age, due to the natural aging process and exposure to external factors such as UV radiation, smoke and pollution, hyaluronic acid deteriorates with repercussions on the quality and appearance of the skin, leading to static marks and wrinkles.

## *DERMA-ESOSOME AGE - Detailed explanation*

- *Sodium hyaluronate: sodium salt of hyaluronic acid (hyaluronic acid + sodium hydroxide) and is used for its greater ability to be absorbed at the skin level. It acts and penetrates to the dermis where it acts as a filler and stimulates the synthesis of collagen fibers; By binding to specific receptors it stimulates the proliferation of fibroblasts and keratinocytes, providing nourishment and deep hydration to the skin;*
- *Sodium Ascorbate (Vitamin C): intrinsic and extrinsic antioxidant and anti-aging action (photo-protection). At the dermal level it helps maintain the adequate density of collagen by regulating its enzymatic synthesis activity;*
- *Acetyl Hexapeptide-30 and Arginine: peptide solution that acts on the post-synaptic agrin / MuSK pathway by acting as a competitive antagonist of MuSK at the arginine binding site, to minimize muscle contraction by reducing expression lines;*
- *Octapeptide-3: biomimetic peptide with anti-wrinkle effect. This octapeptide minimizes the appearance of wrinkles caused by facial muscle contractions. In fact, it reduces neuronal excitability and, therefore, muscle contraction. In addition, fine lines and expression wrinkles disappear and the face appears smoother.*
- *Palmitoyl Oligopeptide – Palmitoyl Tetrapeptide-7: Association of 2 Matrikines palmitoylate : Pal - Gly -His-Lys and Pal - Gly -Glu-Pro-Arg. Promotes the activation of the skin repair process, particularly in the fragile papillary dermis and subject to UV damage. Promotes the smoothing of wrinkles and improves tone and elasticity.*

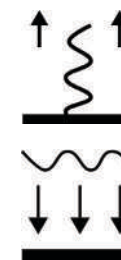

*Having analyzed the action of the specific exosome and its synergy with specific active substances, Derma Esosme – Age is therefore used in general aging treatments, lifting, hydrating and soothing (active inflammatory conditions such as rosacea and dermatitis for example).*

## *DERMA-ESOSOME AGE – Before and After*

**6 Sessions, one each 10 days.  
At home Treatment: Derma-Bio Cream Twice a day.**

## *DERMA-ESOSOME REBUILD - Complete boosting treatment with restructuring and tonig action*

*Booster treatment*

### ***Presentations:***

*Box of 5 sterile vials x 5 ml*

### ***Indications:***

*Complete booster solution based on exosomes and polynucleotides for the treatment of wrinkles, loss of tone*

### ***Ingredients:***

*Next slide*

## *DERMA-ESOSOME REBUILD - Ingredients*

**EXOSOME:** Crocus Sativus Callus Extract

**BIOMIMETIC PEPTIDE:** Hexapeptide-9

**POLYNUCLEOTIDE:** Sodium DNA

**NEO ELASTOGENESIS STIMULATING COMPLEX:** Complete range of hyaluronic acids

**MICROCIRCULATION STIMULATING ACTION:** Cornflower extract

## *DERMA-ESOSOME REBUILD – Before and After*

**3 Sessions Derma-Exosome Rebuild,  
one each 10 days +  
3 Session with Derma-Firming cocktail,  
once a week**

**3 Sessions Derma-Exosome Rebuild,  
one each 10 days +  
3 Session with Derma-Repair cocktail,  
once a week**

## *DERMA-ESOSOME SCALP - Complete boosting for Anti-hair loss & Scalp treatment*

*Booster treatment*

***Presentations:***

*Box of 5 sterile vials x 5 ml*

***Indications:***

*Complete booster solution based on exosomes for the treatment of Hair loss*

***Ingredients:***

*Next slide*

## *DERMA-ESOSOME SCALP - Ingredients*

**EXOSOME:** Olea Europea Calluss Extract

**BIOMIMETIC PEPTIDE COMPLEX:** Acetyl Tetrapeptide-3 + Octapeptide-2

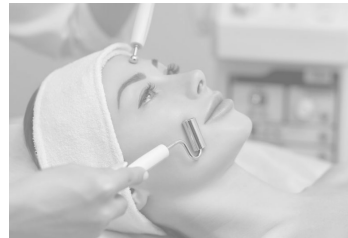

**STRENGTHENING ACTION ACTIVE:** Red Clover Extract

## *DERMA-ESOSOME SCALP – Before and After*

**3 Sessions Derma-Exosome Scap, one each 10 days +  
3 Session with Derma-Hair cocktail, once a week**

# DERMA 2.0® PROFESSIONAL MESO MONOACTIVE

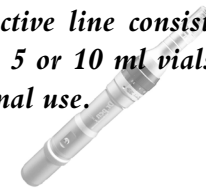

Complete line of professional monoactive sterile vials products aimed at satisfying the needs of those who prefer to exploit the effectiveness of single and specific active substances, without resorting to the synergies of premixed cocktails.

Developed in full compliance with the strictest regulations in force and produced by certified laboratories ISO 22716 and ISO 13485.

Formulated respecting the most rigorous health controls, highly concentrated pure active ingredients, with pharmaceutical quality, sterile, with very high tolerance, safe, microbiologically and dermatologically tested.

Derma 2.0 monoactive line consists of sterile products, in 5 or 10 ml vials for exclusive professional use.

DERMA® 2.0

## ***DERMA-REVITA B SOLUTION – Vitamins B***

### ***Presentation:***

*Box of 5 sterile vials x 5 ml*

### ***Indications:***

*Stimulation of collagen synthesis, microcirculation, nourishment and antioxidant action*

### ***Ingredients:***

*Vitamin B1, B3, B6, B12*

## DERMA-PRO AGE A SOLUTION – Vitamin A

**Presentation:**

*Box of 5 sterile vials x 5 ml*

**Indications:**

*Accelerates cellular turnover, promotes collagen synthesis, purifies, promotes healing and slows down photoaging damage*

**Ingredients:**

*Vitamin A (in form of Retinyl Palmitate)*

## DERMA-RADIANT C SOLUTION – Vitamin C

**Presentation:**

*Box of 5 sterile vials x 5 ml*

**Indications:**

*Inhibits melanin, stimulates collagen synthesis and improves the skin's ability to retain water*

**Ingredients:**

*Vitamin C (in form of Ascorbic acid)*

## *DERMA-NO TIME SOLUTION – Hydrolyzed collagen*

### ***Presentation:***

*Box of 5 sterile vials x 5 ml*

### ***Indications:***

*Stimulates collagen synthesis and the activity of fibroblasts. It helps prevent premature degradation of the dermal matrix, improves the appearance of stretch marks, scars and strengthens hair follicles.*

### ***Ingredients:***

*Hydrolyzed collagen*

## DERMA-HYDRA SOLUTION – MMW Linear Hyaluronic Acid

**Presentation:**

*Box of 5 sterile vials x 5 ml*

**Indications:**

*Fills the spaces between collagen and elastin fibres, providing the transport mechanism for essential nutrients to the cells and helping to keep the dermis young and healthy. Suitable for prevention and first signs of aging.*

**Ingredients:**

*Medium molecular weight Sodium Hyaluronate 10mg/ml*

## DERMA-TONE UP SOLUTION – Dmae

New  
Packaging

**Presentation:**

*Box of 5 sterile vials x 10 ml*

**Indications:**

*Firming and toning action on both the face and body. Acts as a stimulator and prorepaire of collagen and elastin fibers.*

**Ingredients:**

*DMAE (or Dimethylaminoethanol)*

## *DERMA-RESTORER SOLUTION – Organic silicon*

**Presentation:**

*Box of 5 sterile vials x 10 ml*

**Indications:**

*Stimulates and regulates fibroblast proliferation, increases collagen synthesis and promotes the regeneration of elastic fibers. improves tone, elasticity and strengthens dermal components, promoting their regeneration.*

**Ingredients:**

*Organic silicon*

## DERMA-DRAIN UP SOLUTION – Caffeine

**Presentation:**

*Box of 5 sterile vials x 10 ml*

**Indications:**

*Stimulate metabolism especially by promoting the hydrolysis of triglycerides into glycerol and free fatty acids necessary in the treatment of cellulite. Acts as a draining agent for adipocytes by separating water from the cells of adipose tissue, reducing their volume. Suitable in cases of fluid retention, microcirculation defects and cellulite.*

**Ingredients:**

*Caffeine*

## DERMA-AMINO LOSS SOLUTION – Carnitine

**Presentation:**

*Box of 5 sterile vials x 10 ml*

**Indications:**

*Essential for the treatment of localized fat deposits, responsible for fat metabolism, breaks down accumulated fats, bringing them into the mitochondrion where they are subsequently converted into energy.*

**Ingredients:**

*Carnitine*

# DERMA-REMOLDING SOLUTION – Sodium Deoxycholate and Phosphatidilcholine

## **Presentation:**

*Box of 5 sterile vials x 10 ml*

## **Indications:**

*Facilitates the emulsion of fat into smaller particles, allowing its absorption And disrupts the balance of the phospholipid bilayer, causing the solubilization of biological membranes with consequent cellular destruction of adipocytes.*

## **Ingredients:**

*Sodium Deoxycholate and Phosphatidilcholine*

## ***DERMA-SLIM UP SOLUTION – Sodium Deoxycholate***

### ***Presentation:***

*Box of 5 sterile vials x 10 ml*

### ***Indications:***

*Destroy the membranes of fat cells, thus allowing the body to eliminate them through physiological processes. Used for the treatment of double chin as it acts selectively on fat cells without damaging the surrounding tissues.*

### ***Ingredients:***

*Sodium Deoxycholate*

# DERMA 2.0® PROFESSIONAL CHEMICAL PEELINGS

*The Derma 2.0 Peeling line allows you to treat superficial and deep wrinkles, irregular texture, acne, blemishes, photoaging, stretch marks and scars.*

- *Simplicity and safety in operation*
- *Simple and effective formulations*
- *Consolidated operating protocols*
- *Concreteness and immediacy of results*

# DEGREASING PRE-TREATMENT SOLUTION

*Degreasing solution, ideal for acidifying the skin's pH, so as to make the penetration and action of the chosen chemical peel possible as well as optimal and uniform.*

*Applied with a well-soaked gauze, it eliminates the hydrolipidic layer leaving the skin free of dead cells and sebum, balancing its pH by acidifying it. In this way, the penetration of the peel will be possible and as uniform as possible. Free of preservatives, allergens and additional fragrances, it is suitable for all skin types, even the most sensitive.*

*Pre treatment*

**Presentation:**

*30 ml Amber flacon*

**Indications:**

*Preparatory degreasing solution for needling and peeling*

**Ingredients:**

*Acetone, alcool, sodium*

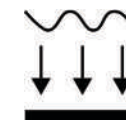

# MANDELIC ACID 50% pH 2.0

*Chemical peeling based on 50% mandelic acid with a firming effect and stimulating cellular turnover, suitable for sensitive skin and intolerant to other caustics. Since it is not photosensitizing, it can be used in all seasons, even in summer.*

*This particular peeling accelerates cellular turnover by disintegrating the small cohesion bonds between the epithelial cells of the stratum corneum which is thus delicately removed, consequently bringing the innermost skin layers to the surface with a more compact and luminous appearance. With its continuous application, the result is a visibly smoother skin and a more homogeneous texture.*

*Even at high concentrations it acts without causing burning and erythema on all phototypes and ethnicities, with application times that can vary from 15 minutes to several hours.*

*Anti age*

## **Presentation:**

*50 ml Amber Flacon with dropper*

## **Indications:**

*Superficial wrinkles, loss of firmness, preparation for needling treatment*

## **Ingredients:**

*Mandelic acid 50%, Melilotus extract, sodium PCA and Salicylic acid.*

# GLYCOLIC ACID 50% p.H 2.0

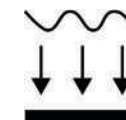

*Chemical peeling based on 50% glycolic acid with a renewing effect indicated in the treatment of wrinkles, chronoaging, scars and stretch marks.*

*It produces a gradual epidermolytic effect by weakening the binding capacity of the lipids that keep dead epithelial cells united. At the epidermal level, glycolic acid causes a detachment of the stratum corneum while, at the dermal level, reaching the dermal papillae in a few minutes after application, it leads to a stimulation in the formation of collagen and elastin;*

*therefore, the outermost layer of skin detaches while the healthier, brighter and better-looking lower layers are brought to the surface.*

*Suitable for all skin types.*

*Anti age*

## **Presentation:**

*50 ml amber flacon with dropper*

## **Indications:**

*Medium and deep wrinkles, scars and preparation for needling treatment*

## **Ingredients:**

*50% Glycolic acid p.H 2.0*

## DERMA-HYDRATING PEELING pH 2.6

Chemical peeling based on ferulic acid, malic acid, thiocctic acid, lactic acid, citric acid, lactobionic acid, gluconolactone, carnitine, threonine and arginine. With a rehydrating, cellular turnover stimulating and illuminating action. Indicated as an adjuvant in the treatment of dehydration and skin senescence. It attracts water molecules towards the surface of the skin layer, at the same time stimulating the synthesis of ceramides (lipid molecules with structural functions and regulation of cellular functions).

Suitable for all skin types.

*Hydrating*

### ***Presentation:***

*50 ml Amber flacon with dropper*

### ***Indications:***

*Dehydration, skin senescence, preparation for needling treatment*

### ***Ingredients:***

*Ferulic acid, Malic acid, Thiocctic acid, Lactic acid, Citric acid, Lactobionic acid, Gluconolactone, Carnitine, Threonine and Arginine.*

# DERMA-WHITENING PEELING p.H 2.0

*Chemical peeling based on glycolic acid, citric acid, kojic acid, azelaic acid, arbutin, resorcinol and sodium DNA with progressive depigmenting and lightening action. Delicate, it acts without causing exfoliation. Indicated as an adjuvant in the treatment of hyperpigmentation (melasma, chloasma, senile and solar lentigo). Suitable for all skin types.*

**Presentation:**

*50 ml Amber Flacon with dropper*

**Indications:**

*Iperpigmentations (melasma, cloasma, senile and solar lentigos) and needling and peeling preparation*

**Ingredients:**

*Glycolic Acid, Citric Acid, Kojic Acid, Azelaic Acid, Lactobionic Acid, Arbutin, Resorcinol and Sodium DNA.*

# DERMA-PURIFYNG PEELING p.H 2.0

*Chemical peeling based on Pyruvic acid, Lactic acid, Azelaic acid derivative, Mandelic acid, Salicylic acid, Vitamin B, Natural honey extracts, Boswellia serrata, Oligopeptide-10. With dermoplastic, keratolytic, sebostatic, antimicrobial properties and prevention of post-traumatic/inflammatory hyperpigmentation.*

*Indicated as an adjuvant in the treatment of acne (even in the active phase), hyperseborrhea, dilated pores and blackheads.*

*Suitable for combination, oily and/or acne-prone skin.*

**Presentation:**

*50 ml Amber Flacon with dropper*

**Indications:**

*Active acne, hyperseborrhea and blackheads*

**Ingredients:**

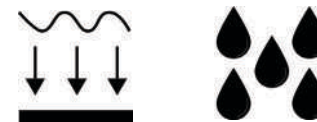

*Pyruvic acid, Lactic acid, Azelaic acid derivative, Mandelic acid, Salicylic acid, Vitamin B, Natural honey extracts, Boswellia serrata, Oligopeptide-10.*

# DERMA-BIO PEEL BIOREVITALIZING PEELING

*Derma-Bio Peel is a renewing treatment with a complete biorevitalizing effect. Thanks to the special biphasic composition and the combination of exfoliating agents, amino acids, antioxidants and natural eudermic oils, it acts 360° on all signs of aging, smoothing the skin and giving an immediate "lifting effect". Adjuvant in the treatment of wrinkles, small spots, atony, uneven texture and uneven color, it gives the skin a bright and toned appearance from the first application, without being aggressive. Suitable for all skin types, ages and ethnicities.*

*Anti age Hydrating*

## **Presentation:**

*50 ml bottle*

## **Indications:**

*Superficial Medium wrinkles, loss of tone and firmness, loss of hydration, Lack of luminosity, Uneven textures*

## **Ingredients:**

*Acidic phase (Lactic acid, Mandelic acid, Salicylic acid), 5 eudermic oils (Coconut Oil, Rice Bran Oil, Argan Oil, Rosehip Oil and Olive Oil), 3 amino acids (Glycine, Proline and Lysine), DMAE and Vitamin E.*

# ***DERMA-REMOVER PEEL – PMU Remover***

*Chemical peeling based on glycolic acid and lactic acid specifically formulated to lighten the areas subjected to dermopigmentation (eyebrows and lip contour). It acts progressively and gradually allowing the resurfacing and consequent expulsion of the molecules that make up the pigments. To be used with a dermograph.*

## ***Presentation:***

*30 ml Amber Flacon*

## ***Indications:***

*Progressive lightening of semi-permanent make-up in the eyebrow and lip contour areas (to be used with a dermograph)*

## ***Ingredients:***

*Glycolic acid, Lactic acid*

## ***DERMA-REMOVER PEEL – Before and after***

**7 Sessions**

# NEUTRALIZING SOLUTION

 *Peeling deactivating solution*

***Presentation:***

*100 ml Spray flacon*

***Indications:***

*Chemical peelings deactivation*

***Ingredients:***

*Water, Sodium Carbonate, Sodium Bicarbonate, Arginine and Glycine.*

 **DERMA<sup>®</sup> 2.0**

# DERMA 2.0® PROFESSIONAL DERMOCOSMETICS

*The Derma 2.0® home skincare line has been formulated to solve the problems of all skin types, especially those that cannot be treated with the use of normal over-the-counter cosmetic products.*

*The deep knowledge of the skin and its specificities allows Derma 2.0® products to always offer effective, concrete and safe solutions without any exceptions.*

*A true "2.0" revolution in the world of routine skincare:*

- *Formulations enhanced with a mix of Biomimetic Peptides;*
- *Pure Phytoextracts and eudermic Oils for results never seen before.*

*Increasingly effective formulations, aimed at improving every type of blemish; a product for every need, for a real home maintenance treatment of the results obtained in the cabin.*

*All products are rigorously formulated and produced by accredited Italian laboratories in compliance with GMP regulations:*

- *In complete respect of the environment;*
- *Without any animal testing;*
- *Free of synthetic antioxidants such as BHT and BHA,*
- *aluminum salts, aggressive surfactants, SLS and SLES;*
- *100% hypoallergenic fragrances;*
- *Dermatologically and ophthalmologically tested. 100%*

MADE IN ITALY

# DERMA-SCRUB FACE

*Intensive facial exfoliant based on pumice grains and fruit stones finely ground with different grain sizes. Accelerates epidermal cell turnover, giving greater luminosity and a visually more homogeneous texture. Ideal for the face, neck, décolleté and back of the hands.*

**Presentation:**

*50 ml Jar*

**Indication:**

*Face exfoliating cream for all skin type*

**Ingredients:**

*Pumice grains, fruit stones, Oat extract, Pomegranate seed extract, Illipe butter, Coconut oil, Sweet almond oil, Hazelnut oil, Argan oil, Vitamin E.*

# DERMA-HYDRATING MOUSSE - HYDRATING CLEANSER

*Mousse indicated for the daily hygiene of dry and dehydrated skin.  
Its formula enriched with soothing extracts of Damask rose, hyaluronic acid, gluconolactone, calendula extract and chondrus crispus algae provides deep and immediate hydration while respecting the normal balance of the epidermis.*

*Hydrating*

<b>Presentation:</b>	150 ml Airless Flacon
<b>Indications:</b>	Dry/Normal Skin Cleanser
<b>Ingredients:</b>	Rosa Damascena extract, sodium hyaluronate, gluconolactone, Calendula extract, sweet almond extract, Ginkgo Biloba extract, Ginseng extract, glucose and lactic acid.

# DERMA-PURIFYING MOUSSE – PURIFYING CLEANSER

*Antibacterial, astringent and purifying mousse for the daily hygiene of normal, combination, oily and acne-prone skin. Gently removes impurities without irritating, preserving skin hydration and minimizing overproduction of sebum.*

## **Presentation:**

*150 ml Airless Flacon*

## **Indications:**

*Mixed/Oily Skin Cleanser*

## **Ingredients:**

*Salicylic acid, Lactic acid, Willow extract, Thyme extract.*

# DERMA-BIO - BIOREVITALIZING FACE CREAM

*To counteract the effects of the passage of time and daily stress, Derma-Bio face cream is an effective tool for daily skincare, for all skin types (even the most demanding) that want a healthier, toned and radiant appearance. Thanks to a special complex of biomimetic peptides, amino acids, hyaluronic acid, pure plant extracts and eudermic oils, it redraws the oval of the face giving tone, elasticity, hydration and compactness even to the most demanding skin. Suitable for all skin types.*

*At home, apply morning and evening at the end of the entire work protocol, in order to maintain the results obtained in the cabin.*

*Biorevitalizing*

***Presentations:***

*50 ml airless bottle*

***Indications:***

*Acts at 360 ° on all signs of aging: reduces wrinkles, firms, hydrates and tones*

***Ingredients:***

Organic Aloe Vera Extract, Peptide Complex Based on Hexapeptide-14, Decapeptide-21, Decapeptide-22, Nonapeptide-14, Oligopeptide-78, Sodium Hyaluronate, Goji Berry Extract, Hydrolyzed Wheat Proteins, Amino Acid Complex including Proline, Glycine, Lysine, Betaine, Panthenol, Vitamin C, Vitamin E, Rice Oil, Coconut Oil, Sweet Almond Oil, Illipe Butter.

# DERMA-HYDRATING - HYDRATING FACE CREAM

*Derma-Hydrating Cream facial moisturizer was created in response to the ongoing needs and requests for a light but at the same time effective moisturizing treatment. Suitable for all skin types.*  
*The completeness of this formula makes the Derma-Hydrating Cream Derma 2.0® moisturizing facial cream, an effective and at the same time pleasant treatment. It gives the skin comfort and a pleasant sensation of well-being, softness, firmness and brightness.*

*At home, apply morning and evening at the end of the entire work protocol, in order to maintain the results obtained in the cabin.*

<b>Presentation:</b>	50 ml Airless bottle
<b>Indications:</b>	Dehydration, skin senescence
<b>Ingredients:</b>	Organic Aloe Vera, Coconut Oil, Sweet Almond Oil, Illipe Butter, Vitamin B3, Vitamin E, Vitamin C, Gluconolactone, Arginine, Betaine, Sugar Complex with hydrating and hydration-maintaining action (Erythritol, Glucose, Trehalose, Fructose, Inositol) Urea, Serine and Glycine.

# DERMA-WHITENING - DEPIGMENTING FACE CREAM

*The Derma-Whitening Cream anti-blemish face cream is a valid aid for the lightening treatment of classic dark spots or hyperpigmentation on the face, neck, décolleté and hands. Natural functional substances that inhibit the melanogenesis process allowing to significantly attenuate the most common dyschromias. At the same time, the Derma-Whitening Cream fights the signs of aging by stimulating cellular turnover and collagen production, making the skin bright and compact.*

*At home, apply morning and evening at the end of the entire work protocol, in order to maintain the results obtained in the cabin.*

*Hyperpigmentations*

## **Presentation:**

*50 ml Airless bottle*

## **Indications:**

*Hyperpigmentation, melasma, chloasma, freckles, photoaging damage*

## **Ingredients:**

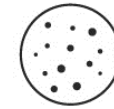

*Gluconolactone, Glycolic Acid, Kojic Acid, Lactic Acid, Pure Plant Extracts of Arbutin, Bitter Orange, Milk Thistle, Vitamin C, Vitamin E and Eudermic Oils.*

# DERMA-PURIFYING - ANTI ACNE FACE CREAM

*Excess sebum causes in most cases the obstruction of the excretory ducts of the pilosebaceous follicles, thus favoring the development of pathogens such as propionibacterium acnes. The phytocomplex of the purifying face cream Derma-Purifying Cream aims to purify the skin thoroughly while also rebalancing the production of sebum.*

*At home, apply morning and evening at the end of the entire work protocol, in order to maintain the results obtained in the cabin.*

*Purifying*

***Presentation:***

*50 ml Airless bottle*

***Indications:***

*Active acne, hyperseborrhea and blackheads*

***Ingredients:***

*Salicylic Acid, Retinol, Burdock Extract, Vitamin C, Vitamin E and Elastin*

# DERMA-EYE SERUM & CREAM - EYE CONTOUR CREAM & SERUM

*Derma-Eye Serum & Cream is an effective daily treatment for the eye contour with active ingredients with anti-fatigue, soothing and anti-aging action. Derma-Eye Serum, the perfect first step for the daily care of the eye contour, gives a pleasant sensation of freshness, minimizing the appearance of bags and dark circles. Derma-Eye Cream, the second step for daily care, visibly reduces wrinkles for a more relaxed and rested appearance.*

*At home, apply morning and evening at the end of the entire work protocol, in order to maintain the results obtained in the cabin.*

**Presentation:**

*Serum:. 30 ml Airless bottle, Cream:. 15 ml Airless bottle*

**Indications:**

*Anti-fatigue, soothing and anti-aging action*

**Ingredients:**

**Derma-Eye Serum:** Tetrapeptide-5, Tetrapeptide-14, Hesperidin, Caffeine, Escin, Ximeninic Acid, Pullulan Extract, Red Tea Extract, Witch Hazel Extract, Prickly Pear Extract, Camellia Extract, Ginkgo Biloba Extract, Frankincense, Aloe Vera, Boswellia Serrata Extract, Honey Extract, Sage Extract, Vitamin E, Wheat Germ Oil, Fermented Radish Root Extract and Hyaluronic Acid.

**Derma-Eye Cream:** 3D complex of biomimetic peptides (Decapeptide-21, Decapeptide-22, Nonapeptide-14, Oligopeptide-78), Sweet Almond Oil, Illipe Butter, Hydrolyzed Wheat Proteins, Gluconolactone, Hesperidin and Diosmin, Pullulan, Caffeine, Ximeninic Acid, Ginkgo Biloba Extract, Prickly Pear Extract, Chicory Extract, Sodium Hyaluronate and Vitamin E.

# DERMA-REGEN - SHOOTING POST TREATMENT MASK

*Derma-Regen is a gel-mask formulated to reduce irritation, calm redness and promote the natural process of repair and re-epithelialization of tissues subjected to invasive treatments such as needling, peeling, laser, etc.... Its specific properties are attributable to the presence of Tetrapeptide-14, a soothing and anti-reddening peptide that reduces the action of proinflammatory substances. Free of allergens, suitable for all skin types, even the most sensitive.*

**Presentation:**

*50 ml Airless bottle*

**Indication:**

*Post peeling, needling and any invasive treatments*

**Ingredients:**

*Organic aloe vera, shea butter, complex of 6 eudermic oils, vitamins E, hyaluronic acid, ceramides and phytosphingosines.*

# DERMA-SUN SPF 50+ - SUN PROTECTIVE CREAM

*High efficiency SPF50+ UVA/UVB sunscreen, Hawaiian friendly, Very Water Resistant specifically for post-treatment protection of the face, neck, and décolleté.*

*Without the presence of: Benzophenones, Ethylhexyl methoxycinnamate, Nano filters, Silicones.*

*Protects and hydrates, giving an intense and safe tan.*

*Sun  
protection*

## **Presentation:**

*50 ml Airless bottle*

## **Indications:**

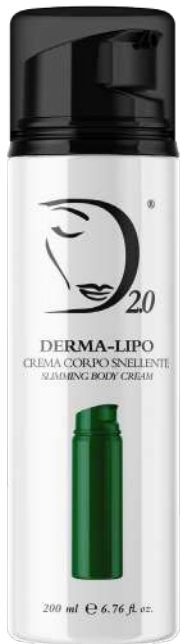

*Sun protection SPF 50 + post treatment needling, laser, peeling*

## **Ingredients:**

*Panthenol, Aloe Vera, Tetrapeptide-14, Rooibos extract, Green tea extract, Boswellia extract, Honey extract.*

# DERMA-LIPO – SLIMMING BODY CREAM

*The slimming body cream Derma-Lipo Cream is an easily absorbed emulsion indicated for the treatment of localized fat deposits and fat pads. Combined with a regular lifestyle and a balanced diet, applied consistently, it allows for a significant reduction in fat pads, reshaping the appearance and slimming the body profile.*

*At home, apply morning and evening at the end of the entire work protocol, in order to maintain the results obtained in the cabin.*

**Presentation:**

*200 ml Bottle*

**Indications:**

*Localized adiposity*

**Ingredients:**

*Phosphatidylcholine, Aescin, Caffeine, Tripeptide-1, Pineapple extract, Ivy extract , Ruscus extract, Ginkgo biloba, Sweet almond oil, Illipè butter, Vitamin E, Aloe vera.*

# DERMA-CELU - ANTI CELLULITE BODY CREAM

*Derma-Celu Cream, draining anti-cellulite body cream is an easily absorbed emulsion that helps treat cellulite at all stages and, if applied consistently, allows you to act on fluid retention (such as swollen legs) for a truly effective draining treatment.*

*At home, apply morning and evening at the end of the entire work protocol, in order to maintain the results obtained in the cabin.*

**Presentation:**

*200 ml Bottle*

**Indications:**

*Cellulite and water retention*

**Ingredients:**

*Dipeptide-3, Ivy extract, Aescin in liposomal form with high bioavailability, Phosphatidylcholine, Horse chestnut extract, Pineapple extract, Organic aloe vera, Gotu kola (Asian centella), Illipè butter, Sweet almond oil, Vitamin E*

# *DERMA 2.0<sup>®</sup> med - Medical Devices CE 0373 Class III / CE 0425 Class IIa*

## *DERMA-FILL MEDIUM – Cross-linked Hyaluronic acid-based filler 21 mg/ml*

*Medical Devices CE 0373 Class III*

**Rheological characteristics:**  
*MW 1 M Da, G' 100, G'' 20*

### ***Presentations:***

*1 Box x 1 Syringe of 1ml with 2 TERUMO 27G needles*

### ***Indications:***

*Lip filling, correction and improvement of medium and deep wrinkles, nasolabial folds and marionette lines*

### ***Ingredients:***

*Cross-linked (With BDDE) hyaluronic acid 21mg/ml*

## *DERMA-FILL STRONG – Cross-linked Hyaluronic acid-based filler 26 mg/ml*

Medical Devices CE 0373 Class III

Rheological characteristics:  
*MW 1,5 M Da, G' 130, G'' 50*

### ***Presentations:***

*1 Box x 1 Syringe of 1ml with 2 TSK 25G needles*

### ***Indications:***

*Redefinition of the jawline, cheekbones, chin and also improvement of deep wrinkles*

### ***Ingredients:***

*Cross-linked (With BDDE) hyaluronic acid 26mg/ml*

***DERMA-FILL MEDIUM & STRONG – Before and after***

**1 Session**

## *DERMA-PEEL TCA STRONG – Chemical peel based on trichloroacetic acid, mandelic acid and kojic acid*

*Medical Devices CE 0425 Class II*

### ***Presentations:***

*1 Box x 5 vials of 5ml each*

### ***Indications:***

*Medium and superficial scars, dark spots, severe skin dyschromia, medium and superficial wrinkles and active acne.*

### ***Ingredients:***

*Trichloroacetic acid, mandelic acid and kojic acid*

## *DERMA-PEEL TCA STRONG – Before and after*

**1 Session**
