## FlowMir®

Disposable Turbine Flowmeter  
MIR exclusive product  
International patent

Each turbine, which includes a cardboard mouthpiece, has been individually factory tested with a computerized system

It comes standard in a dispenser of 50 pcs

FlowMIR® is an inexpensive alternative to a costly reusable flowmeter and replaces the need for an antibacterial filter

A full Spirometry session can be performed, including a Bronchial Challenge and POST Bronchodilator test

For each patient, after the Spirometry test, both turbine and mouthpiece are thrown away

Two types of turbine  
flowmeters available:

**MIR Disposable Turbine**

**MIR Reusable Turbine**

The reusable turbine is manufactured with **high-tech materials** - including special alloys and synthetic sapphires - for durability while retaining the features of reproducibility and accuracy even after many years of use
